

Playing an iPod Slideshow

Using the click wheel, select Photos, then select Slideshow Settings.

In Slideshow Settings, adjust the following options:

- Time per Slide
 - Select each photo to display for 2, 3, 5, 10, or 20 seconds. Or select manual and click to change pictures.
- Music
 - Select which playlist you would like to hear as the photos are displayed.
- Repeat
 - On, the photos slideshow will loop
 - Off, the photos will display once
- Shuffle Photos
 - On, the photos will display in random order
 - Off, the photos will display in the order set in the iPhoto album
- Transitions
 - Select the visual effect seen between photos
- TV Out
 - On, the photos will not display on the iPod. They will only display through the AV cable on a LCD projector or TV.
 - Off, the photos will only display on the iPod.
 - Ask, when the slideshow starts, you will be asked if the TV Out should be on or off.
- TV Signal
 - NTSC – Select for TV Out in North America and part of South America
 - PAL – Select for TV Out in the rest of the world
